Company Profile

FUJITRANS (SHANGHAI) CO., LTD.

With an office in Shanghai, we support import and export operations to and from China in response to customer requests, not only in the East China area, but also at various ports in China. For cargoes to and from China, we are good at providing integrated transportation services in cooperation with our group companies around the world as well as at Japanese ports. We also transport large cargoes by containerhips, RO/RO vessels and conventional vessels, and we transport products manufactured on an OEM basis in China through import and export to and from the bonded zones and logistics parks.
